

# CILLENT PLUS

## Pendimethalin 38.7% CS

**CILLENT PLUS** belongs to dinitroaniline chemical group. **CILLENT PLUS** is a broad spectrum, selective pre-emergent and pre-plant incorporation herbicide recommended in Soybean, Onion, Chilli and Cotton crops for effective control of annual grasses, sedges and broad-leaved weeds.

**CILLENT PLUS** inhibits cell division and elongation thus inhibiting root as well as shoot growth and finally prevent weed emergence.

**CILLENT PLUS** is based on advance capsule technology in which active ingredient is packed in capsule form. Because of this technology the molecule is released slowly on soil surface and give prolonged control of newly emerged weeds

CROP	WEEDS	Dosage MI/Ha	Dilution in Water (Litres/Ha)
<b>COTTON</b>	Digitaria sanguinalis, Echinochloa colonum, Dinebra arabica, Eragrostis minor, Lantana camara, Brachiaria mutica, Portulaca oleracea, Amaranthus spp., Commelina communis, Parthenium hysterophorus	<b>1500-1750</b>	<b>500</b>
<b>ONION</b>	Dactyloctenium aegyptium, Dinebra arabica, Digitaria sanguinalis, Echinochloa spp., Portulaca oleracea, Commelina spp., Digera arvensis, Amaranthus viridis, Trianthema portulacastrum	<b>1500-1750</b>	<b>500</b>
<b>CHILLI</b>	Echinochloa colonum, Dinebra arabica, Brachiaria mutica, Portulaca oleracea, Amaranthus spp., Commelina spp., Parthenium hysterophorus, Digera arvensis, Physalis minima	<b>1500-1750</b>	<b>500</b>
<b>SOYBEAN</b>	Echinochloa colonum, Dinebra arabica, Digitaria sanguinalis, Brachiaria mutica, Dactyloctenium aegyptium, Portulaca oleracea, Amaranthus viridis, Euphorbia geniculata, Cleome viscosa	<b>1500-1750</b>	<b>500</b>

**Pack size : 350ml, 700ml, 1Liter & 3.5 Liter**
