

COPPFIX

Copperoxychloride 50% WP

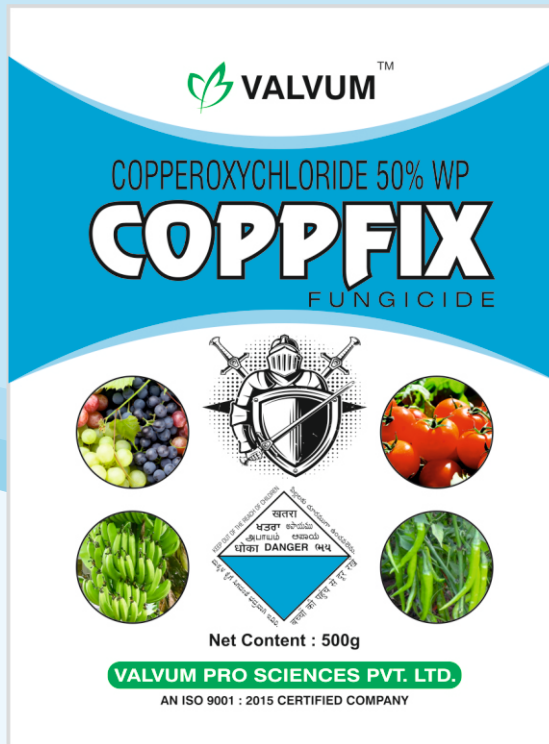

COPPFIX is a Copper based broad spectrum, fungicide, which controls the fungal as well as the bacterial diseases with protective action.

COPPFIX also effectively controls the fungi resistant to the frequently used fungicides.

COPPFIX due to its fine particle size, it sticks to the leaves and helps in restrict the spread of the disease.

COPPFIX due to its contact action provides protection to the plants prior to the disease infestation.

COPPFIX acts as an anti-sporulant to kills fungal spores and inhibit the germination of spores even at low concentration
