

TUCKEER

Fipronil 5% SC

TUCKEER Broad Spectrum Insecticide with contact and stomach action.

TUCKEER is toxic to the insect pest by affecting central nervous system.

TUCKEER is effective against the insects resistant (tolerant) to other existing insecticides.

TUCKEER has low soil mobility leading to persistent efficacy.

TUCKEER is effective for the insects resistant or tolerant to pyrethroid & other insecticides.

TUCKEER blocks GABA-gated chloride channels in the central nervous system, ultimate resulting death of target insect.

TUCKEER has phytotoxic effect impacting crop health.
